- Some one wrote to Horace Greeley enquiring guino was good to put on potatoes. He said it might do for those whose tastes had become withness with tolsieco and rum, but he preferred gravy and butter.

- Pape, dining once with Frederick Prince of Wales, pard the Prince many compliments. "I wonder, Pape," said the Prince, "that you, who are so severe on kings, should be so complaisant to me." "It is," said the wily bard, "because I like the lion before his claws are grown."
- One of the most atrocious puns ever made was perpetrated by a very harmiess sort of person. Sar-Possesson.-All unnecessary movements are contrary to the rules of grace and good beeding. When not intentionally in motion, year body and limbs should be in perfect rest. Addison says that "the use of dancing lessons is to teach a lady how to sit still gracefully. Your whole deportment should give the idea that your person, your voice, and your mind are entirely under your own control. Self-poseession is the first requisite to good manners, and where it is wanting there is generally a reason for it in wrong feeling or false appreciation of things. Vanity, a love of display, an overweening desire to be admired, are great obstacles to self-posses whereas, a well-disciplined and well-balanced character will generally lead to composure and ex-command. Ic a very elegant assemblage in a large drawing-room in a southern city, I saw a young lady walk quietly and easily across the agariment to speak to a friend, who said to her, "I wanted very much to get to you, but I had but the courage to cross the room; how could you do it, all alone, too, and with so many persome looking at you?" "I did not think of any body's looking at me, was the reply; and in that by the secret, of her self-possession. Modest people think themselves to be of too little const quince to be observed; but conceited ones think comybody must be looking at them. Inexperienced girls, who are not wanting in modesty, are age to dread going into a crowded room from an idea that every eye will be turned upon them; but after awhile they find that nobody cares to look at them, and that the greater the crowd, the less they are observed.

- IS THE ORIGINAL AND ONLY GENUINE. THE PUBLIC ARE CAUTIONED AGAINST the unfounded statements frequently made, "that the composition of CHLORODYNE is known to Chemists and the Medical profession." The fact is, Chlorodyne was discovered and invented by Dr. J. COLLIS BROWNE (ex Army Medical Staff), and so named by him, and it has baffled all attempts at anal-ysis by the first Chemists of the day. The method and scoret of the preparation have never been published. It is obvious, therefore, that anything under the name, save Dr. J. COLLIS BROWNE'S CHLORODYNE, is a sparious imitation. CAUTION.—Vice-Chanceller Sir W. P. Wood stated
- of Chlorodyne. REMEDIAL USES AND ACTION. This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without coating any of those unphresant results ablending the use of optum. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical man extol its virtues most extensively, using it is great quantities in the following diseases:—Cholera, Ryentery, Diarrhera, Colies, Coughs, Asthma, Rheumalism, Neurally, Whisping Cough, Cramp Hysteria, Ze.
